Ashford Hospitality Trust, Inc., a publicly traded REIT, Series M Redeemable Preferred Stock. By way of background, traditional traded preferred securities are similar to fixed-income investments with equity-like features mainly issued by large corporations, banks and insurance companies. These securities may be perpetual and callable, typically pay dividends instead of coupons, offer multiple rate structures, often have investment grade ratings, and are subordinated in the capital structure. This security has priority of receiving dividends over common stockholders.

¹ One year period beginning on the date the purchased CUSIP was issued. Dividends on our preferred stock, including the Series M Preferred Stock, are discretionary. Ashford Hospitality Trust cannot guarantee that we will be able to pay dividends in the future or what the actual dividends will be for any future period.

² Stated value is an amount assigned to a corporation's stock for internal accounting purposes when the stock has no par value. Stated value has no relation to market price.

³ The primary offering size is up to \$300 million, which does not include up to \$100 million issued pursuant to the dividend reinvestment plan (DRP). We reserve the right to reallocate shares of the Preferred Stock between our primary offering and the DRP. This offering includes a maximum of 4,800,000 Shares of Series M Redeemable Preferred Stock.

⁴ Redemptions may be made in cash or Ashford Hospitality Trust common stock (NYSE:AHT) at Ashford Hospitality Trust's election. Pursuant to the Series M Articles Supplementary, our board of directors may, without stockholder approval, permanently revoke this right to pay the redemption price (or a portion thereof) in shares of our common stock and pay the redemption price solely in cash. Subject to the following sentence, for so long as our common stock is listed on a national securities exchange, we have the right, in our sole discretion, to pay the redemption price in cash or equal value of shares of our common stock or any combination thereof, based on the closing price per share of our common stock for the single trading day prior to the date of redemption.
